PROFESSOR OF ECONOMICS

Center for Economics at Paris-Saclay (CEPS) | Université d'Évry Paris-Saclay
Permanent position | Starting date: 1 September 2027

THE POSITION

The Department of Economics at Université d'Évry Paris-Saclay and the Center for Economics at Paris-Saclay (CEPS) invite applications for a permanent position as Full Professor of Economics (Professeur des Universités, CNU Section 05). Applications are welcome from outstanding candidates working in any field of economics aligned with the research areas of CEPS.

RESEARCH ENVIRONMENT

Established in September 2026 through the merger of the economics research units of ENS Paris-Saclay and Université d'Évry Paris-Saclay, CEPS brings together approximately 30 faculty members and 20 PhD students across its two campuses. Research at CEPS combines theoretical modelling with numerical and econometric methods and is organized around three main areas: Applied Economics & Public Policy, Economic Theory, and Macroeconomics.

CEPS is part of the Graduate School of Economics & Management at Université Paris-Saclay and is a member of the CNRS TEPP federation. The research center promotes collaborations across Paris-Saclay and within national and international research networks. The CEPS also hosts the FIRST research chair (Finance, Inequality, Resilience, Sustainability and Technology), which studies how the distribution of income generates systemic financial, macroeconomic and environmental fragilities, and how artificial intelligence reshapes them.

CANDIDATE PROFILE

Candidates are expected to speak French and demonstrate:

- Internationally recognized research excellence, evidenced by publications in leading international journals and an ambitious research agenda.
- Experience in academic leadership, teaching coordination or degree-programme management, and/or a willingness to contribute to the collective activities of the department, university and research center.
- The ability to develop research collaborations and contribute actively to the scientific life and international visibility of CEPS.
- Proven experience supervising Master's and PhD students.

TEACHING AND ACADEMIC SERVICE

Teaching responsibilities may span undergraduate, Master's and doctoral programs. Assignments will reflect the successful candidate's expertise and may include responsibility for a general undergraduate lecture course. The ability to teach in both French and English is required. The professor will also contribute to academic administration and the collective activities of the department, university and research center.

CONTACTS

Research: Olivier Bos (olivier.bos@ens-paris-saclay.fr) · Eleni Iliopulos (eleni.iliopulos@univ-evry.fr)
Teaching: Michel Guillard (michel.guillard@univ-evry.fr)

Interested candidates are encouraged to submit their CV and a cover letter by 18 December 2026.
